

28 January 1974

Dear Bud:

The time and effort you devoted to restoring our Agency seal are greatly appreciated. This was a painstakingly slow and tedious job that required precision of detail, but your dedication to the task produced a bright, clean plaque which we will exhibit with pride.

Your diligence and personal attention to this effort are indicative of the high quality of work consistently produced by the entire Graphics Section. You may all stand proud of your accomplishments, and I thank you.

Sincerely,

/s/
